

Press Release

Low Cost 300MHz-6GHz Mixers Have LTCC Reliability

Mini-Circuits has introduced MCA1, a series of very broadband, highly reliable low temperature cofired ceramic (LTCC) frequency mixers. With level 7, 10, and 13 (LO) models available for your 300MHz-6GHz designs, these double balanced mixers have insertion loss down to 6dB (typ), isolation up to 40dB (typ), and are built with all circuitry hermetically embedded inside the ceramic to realize excellent temperature stability, repeatability, and compact 0.07" profile.

They're ideal for the government's COTS program and your commercial applications. Price: From \$5.95 ea. (Qty.10). For more information about

Mini-Circuits New Patent pending MCA1 mixers,
